To each and every one of you; look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Forecast for July 2013

Aries 20 March – 19 April

The home and family concerns will take all your energy. When you think all is going well there will be confusion and misunderstandings galore. Along with drama and tensions. But in the end everything will work out perfectly as long as you stay mindful of your family's (including parents) needs and expectations.

Taurus 20 April – 20 May

This is a bad time to make sudden decisions. Best wait till later in the month and even then reflect carefully before deciding anything. But this is a great time to prepare a document, work on a plan, or go over and correct projects. Just don't say it's finished. Because it won't be!

Gemini 21 May – 20 June

If you spent last month thinking big, then your earning ability is about to change. What you have is of value and now needs respect, management and protection. Grab opportunities around you. Grow your resources, and you will have help with decisions. Life is like a small business. Learn and manage it like a good leader.

Cancer 21 June – 22 July

On one hand you want to charge ahead but every time you do something stops you. So you may as well stop. Get all the details sorted, make sure you have what you need, and gather paperwork. A good cake begins with preparation. Then by later this month press the GO button!

Leo 23 July – 22 Aug

You have Venus in your sign and she brings a

Exciting News....

I am delighted to announce I will be doing a workshop with Zee Dammerel who created the wonderful and serene Artisans Garden in Koonwarra. Visit when you have a cuppa at the Bakehouse.

Mother Nature, the Moon and You.

A powerful three way combination for creating the garden you have always dreamed of"

When we combine our wisdom with Nature's and the Moon's energies magical things can happen - LEARN HOW!

In this course we (Kerry Galea and Zee Dammerel) show you how to use the Moon's wisdom to your advantage. We'll present a good understanding of Ancient Moon Gardening and how to apply it every day in your gardening for great results.

We'll also talk about our relationship with nature and how when you partner with nature's intelligence you'll learn how to grow gardens you'll never want to leave. Basic guidelines for building an energy garden? Yes, we'll give you those as well!

Quote of the Month:

Communication is something that people often say they'd love to improve. To be more exact, other people's communication is something that people often say they'd like to improve.

sense of fun and comfort. On the surface you are all light and bubbles. But other influences suggest that underneath you are in a process of deep thought and realignment. Some values were inherited from your generational family. Do you still want these values?

Virgo 23 Aug – 22 Sep

This is a month to become part of a bigger organization. And it will give you benefits. There is happiness as well as collective power when you become part of something bigger than yourself. A team can achieve many goals. Later in the month you will be noticed and people will be drawn to meet you.

Libra 23 Sep – 22 Oct

There are huge opportunities at work. Decide what you want and if you want it; go for it. It will take a while to manifest and may appear to be withheld from you at first. And avoid confrontation. But never fear; your time will come and it will turn out to be better than you expect.

Scorpio 23 Oct – 21 Nov

You have a thirst for the truth, but someone is holding back. Bide your time as you will eventually find out later in the month. There is power in knowledge, so ask for advice and learn for yourself. This may involve travel. And it's never too late to learn! Your work will also bring benefits.

Sagittarius 22 Nov – 21 Dec

Spending money to satisfy emotional needs is rarely a good thing. What will be satisfying is gaining deep intimacy and understanding with others. Show loved people your heart-felt values. Also a great time to sort out, de-clutter, break bad habits, recycle and remove rubbish of any sort; emotional or physical.

Capricorn 22 Dec – 19 Jan

Some of your loved ones are going through a huge process of change and much needed expansion. They keep changing their minds. Do you feel emotional, and maybe a little hurt, or

The Answer to a Green Screen?

There comes a time when you want a growing green screen to hide something unsightly, or to give privacy. So you plant a hedging plant. But you find that it just does not hide what it's meant to hide?

Ahhh..... I have the answer. All it comes down to is pruning regularly; and at the right time!

I can hear you question why pruning will make a plant more effective as a hedge.

Think about it like this. The more branches you have, the more leaves you will have. The more leaves you have, the thicker the hedge will be.

left behind? Give yourself a hug and do something for yourself. And it's a good time to rearrange the furniture to help gain a fresh outlook.

Aquarius 20 Jan – 18 Feb

This is a perfect month to focus on health issues, healthy living and to start good habits. Also pay attention to your responsibilities. In fact, make a list of them. Start with your body and include every facet of daily life. You may be surprised at how many you have.

Pisces 19 Feb – 20 March

Time to play! Let your inner big kid out for a party or take a risk and do something new and fresh. Your creativity is at its peak and will enhance your hobbies, any romances as well as connections with young people. Play like a kid and feel free to express yourself. Enjoy.

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. Happy Birthday Greetings go out to **Cancer** 21 June – 22 July

“What you are speaks so loudly, I cannot hear what you are saying.” Ralph Waldo Emerson

Thank you to the Cancerian who calls me when I am just about to call them and teaches me about intuition!

Leo 23 July – 22 Aug

“Leadership is the ability to put the right people in the right jobs and then stand on the sidelines and be a rousing good cheerleader.” Unknown
Thank you to the Leo who demonstrates how to be a great cheerleader.

Every pruning encourages more branches to form. One branch will turn into three. Prune those and they turn into nine. Prune those and you get twenty seven. Prune those and you getdarn it, where is the calculator? But you get the picture.

I would prune a hedging plant at least 4 times a year and take off a little, not a lot, so that it grows thicker and thicker. Of course you need to prune when it's an ideal pruning time by the Moon to encourage growth. Once your hedge is at the right height and thickness, you then prune at an ideal time by the Moon to reduce growth to keep the hedge under control.

You would prune to encourage growth when the Moon is in a fertile sign and when it is increasing in visible size, i.e. waxing. You would prune to reduce growth when the Moon is in a fertile sign and decreasing in visible size, i.e. waning.

All this is available in the Super Almanac. Ask me for more details.

And have fun in your garden. ☺

News from the Stars

8th July **New Moon** in Cancer

8th July Saturn turns direct in Scorpio

13th July Mars enters Cancer

18th July Uranus turns retrograde in Aries

21st July Mercury turns direct in Cancer

22nd July Mars conjunct Jupiter in cancer

22nd July Venus enters Virgo

23rd July Sun enters Leo

23rd July **Full Moon** in Aquarius

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

What's that in the sky?

Is it a star or a planet? To get your bearings you only need to remember that the sun rises in the east, sets in the west and the warmest side of the house is north. ☺

For all you night owls

Gossip Corner

Comet ISON will appear around November 29th. This comet is travelling very close to the Sun. Here in the Southern Hemisphere it will be visible low in the east just before sunrise. Some astronomers say it will be easy to see, especially if it has a tail which will be pointing upwards away from the Sun. Other astronomers say it will be barely visible. But I would look up just in case you miss the sight of your life! Please do not look directly at the Sun or you will likely be blinded. Look near the Sun for the comet trail. Put it in your diary and let's see what we see! ☺

And thank you to all of you that help me smile at the world!

Look to the East, just after the Sun sets, to see Venus in her role as the Evening Star. Say hello as she will look over us all month. Let the Moon be your guide when the two lovely ladies of the heavens will be together on the 10th and 11th July. The King of the Gods, Saturn, will be directly overhead and the Moon will guide you as she passes by on the 17th July. The Scorpion will march across the heavens all through the evenings. Let the Moon guide you as she passes Antares, the star in his head, on the 18th and 19th July. And the Full Moon will be shining in all her brilliant glory on the 23rd July.

For all you early birds

Later in the month those with a flat horizon may get to see Jupiter and Mars rise in the east just before the Sun rises. But I think we will have to wait till next month. If you are one of the lucky ones you will easily find brilliant Jupiter, then look close by for the reddish star of Mars.

Bear in mind that the planets are not stars. They do not "make" light and we see them only because the Sun is shining on them. Just like the Moon.

The Southern Cross will always be visible slowly rotating in the south. In the mornings it will be upside down and close on the horizon but in evenings it will be nearly vertical and higher in the sky. Let the two brilliant Pointer Stars show you the way. Let yourself be awed!

Readings - Your Map of "Now"

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab hold of life. **Through them we look to your strengths, especially now and to the future.** And to see what to avoid, and what to enjoy.
