Comet Ison
Coming soon to your
early morning sky!

To each and every one of you; look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Astrology Forecast for November 2013

Call me for your personal forecast.

Aries 20 March – 19 April

There is a focus on work and reputation, and the pressure to react to authority figures, and to make some changes in your working life, is heightened. Take care and don't overreact. Because, this month at least, there will be benefits in toeing the line. Also money issues will push you into making a decision.

Taurus 20 April – 20 May

Your loves ones are either being keep in the dark, changing their mind, or keeping news to themselves. It's all OK, as you will find out later in the month. Sometimes delays are for the better; for them as well as you. Also a trip or a holiday seems the right thing to do.

Gemini 21 May – 20 June

Tried to do something and it didn't work out? Now it will. When you apply yourself to dedicated work you will gain success. It will involve putting your head down and having a clear routine. A great time to clean up and get systems in place. In fact, there may be too much work, and not enough fun time!!

Cancer 21 June – 22 July

Your loved ones are under tension and not being recognized for what they do. They will soon receive the help they need. There are plans you will eventually change, but not just at the moment, so stay flexible. A celebration brings a surprise. And it is not a good time to take risks or to rush!

Leo 23 July – 22 Aug

You may be still reeling from an unexpected, or rash, expense. But there will be time to set it right. In the workplace you will notice that people with different upbringings make different assumptions. Notice what your assumptions are. Is it from your own childhood? Necessary talks with family will become easier.

Virgo 23 Aug – 22 Sep

If you are smarting from a misunderstanding I suggest a tonic called, "get over it"! Communication will soon improve. Agree to disagree, or have the last word; and say sorry. A pleasant event can clear the air. Don't make decisions till later in the month: or be prepared to change your mind.

Libra 23 Sep – 22 Oct

Your loved ones will be restless and need some freedom from home and family concerns. Help them to make changes, even if its move the bed around! You on the other hand, will find solace and peace at home. The reality of how much money you have will bite hard. Be prepared to budget and you will manage.

Scorpio 23 Oct – 21 Nov

A significant shift happens as Mercury, the planet of communication, changes direction and goes forward in Scorpio. Any decisions made in the last few weeks will need to be revised and possibly changed. People will look to you for guidance and it's time to allow yourself to be the authority. You know more than you think.

Sagittarius 22 Nov – 21 Dec

To put it in a nutshell; too many good things, not enough money. You don't want to listen to the realistic part of yourself. You want freedom and the good things of life. So I would be very careful with money. But you can also ask yourself; "why not". Perhaps you deserve a little indulgence.

♑ Capricorn 22 Dec – 19 Jan

There is likely to be tensions with various family members; including extended family. And group events may prove demanding. But you have a something extra on your side that will help. Venus, the harmonious lady of love is in your sign. She will help you to pass easily through any hassles and help you to attract what you need.

♒ Aquarius 20 Jan – 18 Feb

The confusion will pass and you will soon know what is going on. Slowdown in all your communications as you can be easily misunderstood. Speak slowly and even write it down. It's time to be sure of your position as you may be called to defend it and have your point of view carefully prepared.

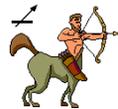

♓ Pisces 19 Feb – 20 March

Escape is needed. Where can you go? Take some time off or at least have a weekend doing something different to what you have always done. A foreign idea or a person from overseas can inspire you to see things differently. And spending time with a social or hobby group will be rewarding.

*

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

Quote of the Month:

If one does not know to which port one is sailing then no wind is favorable. Seneca

Money cannot buy happiness but somehow it's more comfortable to cry in a Mercedes Benz than on a bicycle.

Anon

The best advice I have compiled in times of stress or crisis is -

Only think about the next 5 minutes, or better yet, concentrate on the NOW.

Smile whenever you can. Force a smile if you have too, but use those muscles. Smile! It's about the science of muscles and hormones. It works...smile!

Say yes to everything. To the situation, to the suffering, to any joy, to blessings both ordinary and extraordinary, to the pain. Accept it and say yes to it.

Spend time doing something you love to do.

Give yourself some time to plan ahead, 2 years 5 years and even 10 years in the future. Plan it, imagine it, and build for it. Start now by planning for it! It's even better if you write it down.

What's that in the sky?

Is it a star or a planet? To get your bearings you only need to remember that the sun rises in the east, sets in the west and the warmest side of the house is north.

For all you night owls

Enjoy radiant Venus as the evening star. The Moon will be quite close on the 6th and 7th November and both these lovely ladies together are a glorious sight.

The Scorpion will be diving head first into the horizon before Venus. He is so big that his stinger reaches nearly level with Venus. Watch Venus set into the west then turn around to see Taurus rising in the east.

We can now see the Pleiades, and Aldebaran, a bright star in the eye of Taurus. Let the Moon be your guide as she will be passing close by on the 18th and 19th November.

The Southern Cross is upside down and very low to the horizon, so may not be visible to those with impeded views. It will be easier to see in the early morning as it rotates around the southern celestial pole.

For all you early birds

Jupiter is high overhead and will be close to the Moon on the 22nd and 23rd November. Lower on the horizon are Castor and Pollux, the two stars of Gemini. Mars is roughly half way to the eastern horizon. Let the Moon be your guide as it is close to reddish colored Mars on the 28th November.

We can still see Aldebaran and Pleiades, but now they are setting in the west. Let the Moon be your guide as she passes between them on the 18th and 19th November. The Pleiades is also known as the Seven Sisters, but perhaps you can count more than seven, or can you? The ancients believe these stars foretold blindness, and I bet if you spent time trying to count them; then I am sure that's what would happen to you! ☺

Look higher and see the saucepan or Orion's belt and sword. Star gazers from the northern hemisphere are shocked that we would downgrade glorious warrior god Orion and call part of him a "mere" saucepan. But hey guys; that's what it looks like! Call a spade a spade. We don't see an upside down man with a sparkling belt and sword. We see a saucepan!

Even higher than the saucepan is Sirius, the Dog Star, and the brightest star in the heavens. Jupiter is brighter, but it is not a star, it is a planet. Jupiter's only light is reflected light from the Sun. Say hello to Jupiter before you start your day.

Let yourself be awed! Kerry Galea

Book a Reading Today

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab hold of life. Through them we look to your strengths, especially now and to the future. And to see what to avoid, and what to enjoy.

Moe at Gippsdown on the Highway – in the mornings by appointment. I even do 8am "breakfast" readings. Mind you; no breakfast is provided, but the Gippsdown Cafeteria does coffee! ☺

Traralgon – On Sunday the 24th and again on December 15th at Dyoligy in Traralgon. Be quick, as the end of the year is looming large!

Koonwarra in South Gippsland – Saturday 2nd November and Saturday 1st December at the Artisan workshop Gardens Studio located in the main street (the only street ☺) between Milly and Romeos Bakehouse, and Essential Therapies. I still have space available for you.

Comet ISON will appear to the naked eye around November 29th. It is travelling very close to the Sun and here in the Southern Hemisphere it will be visible low in the east just before sunrise. It is now visible if you have a telescope.

Some astronomers say it will be easy to see especially if it has a tail which will be pointing upwards away from the Sun. Other astronomers say it will be barely visible. But I would look up just in case you miss the sight of your life! Please do not look directly at the Sun or you will be blinded.

Join me in looking up each morning just before and especially on the 29th as it turns around the Sun. We may get a great sight!

Comets are like cats. They have tails, and they do precisely what they want.

David Levy

Birthday Greetings go out to

Scorpio 23 Oct – 21 Nov

"The truth will set you free. But first it will make you miserable". James A Garfield.

Thank you to the Scorpio who showed me that maintaining personal ethics and values is worth it.

Sagittarius 22 Nov – 21 Dec

"It is the things in common that make relationships enjoyable, but it is the little differences that make them interesting." -Todd Ruthman

Thank you to the Sagittarius who did not even notice that they had been let down.

What's On with me?

Gardening By the Moon 6th November. A workshop at Warragul Community House.

To book your place please call them on 0356 236 032

News from the Stars

1st Nov Uranus in Aries square Pluto in Capricorn

3rd Nov **New Moon** in Scorpio with Solar Eclipse not seen in Australia

5th Venus enters Capricorn

6th Nov Sun conjunct Saturn

7th Nov Jupiter goes retrograde Cancer
 11th Nov Mercury goes direct in Scorpio
 14th Nov Neptune goes direct in Pisces
 18th Nov **Full Moon** in Taurus
 22nd Nov Sun enters Sagittarius
 25th Nov Sun square Neptune

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again. Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

Ancient Moon Gardening

The new Super Moon Gardening Almanac for Summer is now at the printers. Call now to get the best Moon Gardening Almanac available. It's the one I always wanted; so I made it!

You Asked for it!

Thank you for all the wonderful feedback on the “Mother Nature, the Moon, and You” workshop. Here is the ANZAC recipe I promised to those who came.

Combine

1 cup rolled Oats

1 cup plain flour

1 cup sugar

¾ cup coconut

Add 1 tablespoon golden syrup

125 grams melted butter

1 teaspoon bicarb soda in 2 tablespoons boiling water

Roll into balls and Bake 160 C for 20 minutes.

If you like them flat and crisp, add a touch more water. But just a touch! ☺

Find me on Facebook where I post articles, links and beautiful items I think you may like.

And I would love it if you “liked” my Facebook pages.
