Your Sun Sign Forecast for August

Aries 21 March – 19 April

Creativity and the desire to enjoy yourself will be the main feature for most of this month. Celebrate being alive and enjoy connecting to others in a fun way. A random smile or a pleasant comment can change someone's world. Mundane routines will soon return but as least you have been practicing how to experience life!

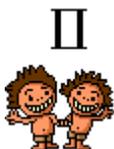

Taurus 20 April – 20 May

This month your family and home life are more important than the world outside your nest. If the world does try and intrude you will react emotionally, so allow time at home to recuperate and reconnect with family. Enjoy beautifying or expanding the home base. Staying young at heart and in attitude will the day.

Gemini 21 May – 20 June

This is a perfect month to reach out and communicate. What has been on your mind should now be discussed as all the facts are there and a decision can now be reached. They may not agree but they will understand, as you can state your case with ease and cooperative harmony.

Cancer 21 June – 22 July

You will want to hold onto what is yours. But you could be lead astray by one who does not think about consequences and only about having a great time. But golly; you may actually have a great time! And what you gain will be worthwhile and rewarding. You will easily negotiate around the consequences.

Leo 23 July – 22 Aug

Its time to say what's on your mind. Although tensions at home or with family can affect how you feel about your new direction. But it's "your" new direction and hence it's the right thing to do. Pay attention to, or revise your

Its time to see what's happening for you.

A big Super Moon is coming!

On August 11th we will have a Super Moon when the Moon will be at its closest point to us. I bet you thought that the Moon travelled in a perfect circle. It doesn't.

Instead it moves in an oval shape. So sometimes it's further away and sometimes it's close. And when it's a Full Moon at the time of its closest approach we see it, especially on the horizon, as a little bigger. And it also causes big big **big** tides!

There are two or three Super Moons each year A Super Moon can also be a New Moon but as we don't see it; it's not so interesting. But it still causes big **big** tides!

People wonder if a Super Moon heightens the weirdness that happens around a Full Moon. Let me know what happens to you!

finances to reflect where you want to be in the future.

Virgo 23 Aug – 22 Sep

  This is a bid month for messages which can come from dreams. Sometimes they just revisit the day, others times they are an inner debate while you figure something out. You need to have it sorted quickly because later in the month you need to be firmly in the world of reality, decisions, and shining your personality.

Libra 23 Sep – 22 Oct

  There is a need to become involved in a group and if you wish you can be a key part of the team. Similar to the game where the reserve gets a chance and ends up playing the whole match, pulling them through at the end. After that I would allow yourself a well-earned rest.

Scorpio 23 Oct – 21 Nov

  Your status will be recognized but you will have to work dash hard for it. It a good thing you have help from the stars. Not just help; almost an almighty heave with the stars giving you a boost towards achievement. If you feel angry it means you are not directing the energy into the right place.

Sagittarius 22 Nov – 21 Dec

  Truth is so very important and telling the truth in a loving way is an art form. You can empower with the truth, where other people would be seen as criticizing. This quest for the truth may take you to travel or to connect with people from different cultures. Soon you will share your ideas.

Capricorn 22 Dec – 19 Jan

  Normally you respect people's taboo subjects and steer well clear but this month you can easily dive beneath the surface and cross boundaries or open up wounds. This can be a magnificent sharing and healing process for them, and for yourself, but manage it carefully as it could easily become a traumatic one.

Aquarius 20 Jan – 18 Feb

  Benefits, connections, love, as well as fun, are in your stars for most of this month as long as you are prepared to pay the price. It may be financial; it may be physically (or mentally) tiring. But heck; it may be so much fun that you are quite prepared for the consequences.

Pisces 19 Feb – 20 March

This month it's a matter of accepting your weaknesses

instead of fighting them. To accept, then forgive yourself and then to let go is the aim. Overcome these bad habits and establish good ones. Never say “cured”, just say you are a recovering “blank”. E.g. sugarholic, judgeholic, lazyholic. It’s time to fill in your blank.

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs.

News from the Stars

- 1st August Mercury enters Leo
- 11th August **Full Moon** in Aquarius Super Moon
- 12th August Venus enters Leo
- 16th August Mercury enters Virgo
- 23rd August Sun enters Virgo
- 26th August **New Moon** in Virgo

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

Quote of the Month #2

“There are only two days in the year that nothing can be done.

One is called yesterday and the other is called tomorrow. So today is the right day to love, do and mostly live”.

Dali Lama

Recipe for Happiness

Wake up and smile... yes move those endorphin producing facial muscles!

Say “thank you” to the whole universe

Smile again ☺

See in your mind’s eye the day’s activities and imagine them unfolding with ease and harmony.

What’s that in the sky in August 2014

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west, the warmest side of the house is north and the shadow side is south. ☺

For all you night owls

High overhead is the Scorpion who has the bright star Antares at his head. This star has a reddish glow and is easy to spot. Look for the weep of his tail and notice the other bright star in his sting!

Mars and Saturn are visible but are hard to spot. They are a little to the west of Antares. Let the Moon be your guide when she will be close to Mars on the 3rd then close to Saturn on the 4th August. Mars spends most of the month a little to the west of Saturn, but by the 22nd he will be tucked in close to Saturn. The Southern Cross spends the month high in the southern skies and on its side.

Smile at the Full Moon as she rises on the 11th in all her radiant glory. ☺

For all you early birds

To all those up before dawn, look up and in the east you will see Aldebaran who is the bright star in the eye of Taurus the Bull. Below him a little to the left you will see the Pleiades, a star cluster also called the Seven Sisters. If you are on high ground with a view to the east, look for Venus who will rise just before the Sun lightens up the morning sky. By mid-month she will be joined by Jupiter. Let the Moon be your guide as she will join with them on the 24th August; a truly beautiful sight and one worth getting up early, but only if you have an clear view. The Southern Cross is low in the Sky and appears upside down.

Let yourself be awed!

Thank You to those that keep me healthy!

Ancient Moon Gardening August 2014

Peeking out the window I see the veggie patch and I've been munching on broad bean tips (yes you can eat them straight off the bush), the broccoli and kale. Also enjoying the lemons and grapefruit. I'm waiting for the cabbages and the actual broad beans. I love the plants of perpetual spinach I got last year. Always giving me my greens. ☺

The lemonade lemon is loaded and I have learnt that they last on the tree, but not on the bench. There is lemon water in a big jug always on my bench and next season I will add cucumber slices. My successive plantings of peas are at various stages and some are ready to pick soon. Enjoy your harvest.
