To each and every one of you; look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Astrology Forecast for January 2015

Aries 21 March – 19 April

A tendency to take big risks could get you into trouble. You need to take a few gambles but remember when to stop. It's the practical details or the fine print that will trip you up. Small amounts of adrenalin rushes are good for the body, but your levels could stay up and not come down.

Taurus 20 April – 20 May

Whatever the world thinks is your major role will be in the spotlight. Expect to be very busy as people will see you as the "make it happen" person. The wonderful thing is; you can! Somebody in the background will try and push you into achieving their agenda. Ask yourself; "why am I doing this".

Gemini 21 May – 20 June

Ready to move? This is a perfect month to travel or to learn about new ideas, and foreign places. You don't know it all; somebody else has more knowledge than you, so learn what they know. This good advice can help you make a big decision. Running away is called denial; and it will lead to problems.

Cancer 22 June – 22 July

It's time to focus on what is hidden to

It's time to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life**. **Through them we look to your strengths, especially now and** to the future, and to see what to avoid, and what to enjoy.

Birthday Greetings go out to

Capricorn 22 Dec to 20 Jan

"Do or do not. There is no try." Yoda

Thank you to the Capricorn who asked me uncomfortable questions and pushed me to know myself.

Aquarius 21 Jan to 18th Feb

"You do not merely want to be considered the best of the best. You want to be considered the only one who does what you do." Jerry Garcia of Grateful Dead

Thank you to the Aquarian who did it completely different to me and ...wow... it worked out so much better!

Thank You to all of you that help me smile at the world.

You are awesome!

you. These could mean that you are finding out secrets. Or that you need to enter deep and meaningful discussions with others. People will tell you their fears and stories which may surprise you. Money may be one of the points of concern. Who's doing what to it?

Leo 23 July – 22 Aug

You have big ideas; they don't. You want to react; they don't. You want to fight; they don't....but they will if you insist! You want to solve their problems; they want empathy. To put it simply, they want peace, long conversations, good times, love and understanding. Keep it simple without blowing it out of proportion.

Virgo 23 Aug – 22 Sep

Do what you do best. Be of service and take care of the details. Yep; boring I know, but tough jobs involving hard work will get done easily this month. I plan on taking care of my health after all the excesses of December. Who will join me for a dietary detox while I clean the windows? ☺

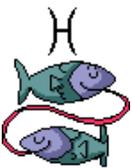

Libra 23 Sep – 22 Oct

Taking risks will alter your future. Are you game enough? These risks may be small and appear insignificant but it only takes one action to have a cascading effect. Be creative and imagine you think outside the box. Forget your cares and live and love with all your heart; just like a fun loving child.

Scorpio 24 Oct – 21 Nov

Home and family needs your attention but you feel there are opportunities with work. Even if you have made up your mind about an issue, let the family discuss it until they are ready to let it go. Conflicts could quickly surface but don't overreact; it will soon pass if you give harmony a chance to grow.

Ancient Moon Gardening

Gazing out the window I can see the fruit and veggie patch and this month it looks like some crazy Gipsy/Bedouin camp with groups of plants festooned with black or white bird netting held on to the supports with brightly colored plastic pegs.

At least this year we get the crops first.... and not the birds!

Sagittarius 23 Nov – 21 Dec

Dashing hither and thither so fast means you can get tangled up and fall over! But you cannot seem to stop still, so keep your wits about you and pay attention to what you are doing now, not what you will be doing next. Big ideas come easily and you will be the one doing all the talking.

Capricorn 22 Dec – 20 Jan

What resources do you have? These can be monetary or can be something you own. You will find that you don't have as much as you want, or need. But smile; for you are either taken care of, or you find you can manage on what you have, or you hire it, or learn how to do it.

Aquarius 21 Jan – 18 Feb

The only arguments that you will win are those you have by yourself in the shower. Use all your energy on being physical. It's a great time to do big jobs that need hard work. It won't exhaust you; in fact you will do it in half the time with a big smile on your face.

Pisces 19 Feb – 20 March

Who's for some quiet time? Find solace and peace in a place of comfort. Reflection is the best thing you can do for yourself this month. Note I said "reflection". Going back over the past will only bring up sadness or regret. Ponder what you have now, and who you are now. Like yourself.

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

This begins the year of the Green Wooden Sheep. A practical year for following rules, but also with the tendency to fight stubbornly for these same rules.

Say "thank you" to the whole universe.

Smile again ☺
