To each and every one of you; look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

## Your Sun Sign Forecast February 2015

**Aries** 21 March – 19 April

Want to celebrate? Do you really need an excuse? Why not do something you enjoy and celebrate that you are alive and vertical and can smile whenever you wish. You are worth celebrating. Then take a breather as its activation time again next month! Boy when will things slow down for you?

**Taurus** 20 April – 20 May

Still more action is happening in the workplace. Whether you are paid to do it or not; it's still a workplace. Sometimes we don't know what questions to ask but a decision becomes easier now that they are telling you everything. Later in the month, find a quiet place to recharge your batteries.

**Gemini** 21 May – 20 June

I bet you cannot stay still? So why try? The stars say it's still a time to move, to be on the go, to explore and to learn. Some of you will move house, others will be on holidays, and others will be learning or becoming a teacher in some way or another. Let yourself stretch.

**Cancer** 22 June – 22 July

You feel the mysteries of life and you are not afraid of the dark secret places within us all. What you do fear is a lack of security and of being unsure. Both these are events and issues that will surface this month. The threat is more of a worry than any actuality.

**Its time** to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life**. **Through them we look to your strengths, especially now** and to the future, and to see what to avoid, and what to enjoy.

**Moe at Gippsdown on the Highway**

Various days of the week by appointment in the beautiful grounds of Gippsdown Heritage Village on the highway at Moe.

**Traralgon** On Sunday the 15<sup>th</sup> at Dyology of Traralgon where all things are beautiful.

**Koonwarra** in South Gippsland – Saturday 7<sup>th</sup> February at the Artisan workshop Gardens Studio between Milly and Romeos Bakehouse, and Essential Therapies in Koonwarra.

## Ancient Moon Gardening

Gazing out the window I can see the veggie patch and this month the tomatoes, strawberries, and beans are everywhere.

Shame that my basil has gone to seed just as the tomatoes are glowing red. Great that I have another lot coming!

The figs are ripening slowly and the apples are growing fat. Thank goodness for bird netting.

Follow the Moon and enjoy your garden.

**Leo** 23 July – 22 Aug

A Lion with a sore paw is troubled Lion. Ask for sympathy, but beware that you could slip into demand for it loudly if it's not forthcoming. I suggest giving yourself a hug before you get to the highly emotional stage. Be open to contemplating and acting on your partner's comments.

**Virgo** 23 Aug – 22 Sep

It's important to be healthy and for you right now it is more important than ever. Here is a quote for you. "Every time you eat or drink you are feeding disease, or fighting it". What are you doing to that sacred temple of your body? This is a great time to change bad habits into good ones.

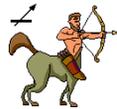

**Libra** 23 Sep – 22 Oct

This is a great time to be creative, to think outside the box, to come up with novel and interesting ideas and to enjoy being inventive. If you don't think you are creative then call yourself resourceful and ingenious. Friends and lovers may become more argumentative. Solve that by practicing using this surge of creativity for novel solutions.

**Scorpio** 24 Oct – 21 Nov

Torn between being the (your current role) and wanting to spend more time at home or with the family. You are more than just a role or just a person that does (your current task) job. Your first duty is to you and your health. Everything would still happen if you were not able to do it.

**Sagittarius** 23 Nov – 21 Dec

Keep on moving, learning, interacting and talking to everyone, including asking for advice. Opportunities are coming. It will mean trusting yourself and taking a risk, but you are about to give birth, metaphorically speaking, so let the contractions happen to create that which you have wanted.

**Capricorn** 22 Dec – 20 Jan

What you have lost will come back to you, although not necessarily in the same form. List your top 5 values. These unconsciously influence every decision and I bet you want to make changes. Feelings of confusion are to be expected as whatever you say will be interpreted differently to what you expected;

Dates AEDT	Moon Position and Phase	Ancient Moon Gardening Planting and sowing days

some better, some worse.

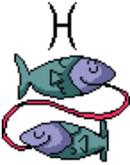

### **Aquarius** 21 Jan – 18 Feb

Soon you will know what to say and how to say it for maximum impact. Loved ones are emotional and you can only help by giving them a dash of sympathy and leave them to their issues. This month is about you being comfortable with being you, or making changes so you are.

### **Pisces** 19 Feb – 20 March

Smile for the camera of life is aimed at you. Whatever you do will be noticed and the stars will bring you whatever you think about. Golly, be quick to change some of those negative thoughts or negative imaginings. Small body aches, pains or issues need attention before they get worse.

\*Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

**Imbolc** 1<sup>st</sup> Feb is an ancient Gaelic festival celebrating the start of Spring in the northern hemisphere. For us, it's the natural, rather than the calendar, start to Autumn. Look to the some of the deciduous trees and you will see that Yes; Autumn is coming! What a shock!

February 2<sup>nd</sup> is exactly halfway between the winter solstice and the spring equinox.

### **Groundhog Day** 2<sup>nd</sup> Feb

In America its Ground Hog Day which started in 18th and 19th centuries from ancient European weather lore where badgers behavior was watched to predict the coming weather. Nowadays it's a huge festival involving Groundhogs in Pennsylvania.

### **Candlemass** Day 2<sup>nd</sup> Feb

In the Christian calendar this is the day when the coming years supply of candles are blessed. It's no accident that Groundhog Day and Candlemas are celebrated together, for both signify the battle between light over darkness with the seasons.

These symbols have a mind of their own, and will only line up if your screen size is the same as mine. I love their crazy antics! Where will they end up next. ☺

## **News from the Stars**

4<sup>th</sup> Feb Full Moon in Leo

12<sup>th</sup> Feb Mercury turns direct in Aquarius

19<sup>th</sup> Feb New Moon in Aquarius

19<sup>th</sup> Feb Sun enters Pisces

20<sup>th</sup> Feb Mars enters Aries

21<sup>st</sup> Feb Venus enters Aries

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life.

*If Candlemas be mild and gay,  
Go saddle your horses and buy them hay;  
But if Candlemas be stormy and black,  
It carries the winter away on its back.*

Traditional verse

## Quote of the Month:

*Practice what you preach*

*You cannot eat your cake and have it too.*

### You think these quotes are new! Nup!

Plautus was a playwright born in 254 BC, Yes... I said BC which is well over 2000 years ago!

“Practice yourself what you preach.” - Plautus, Asinaria, Act III, scene 3, line 54.

“You cannot eat your cake and have it too, unless you think your money is immortal.” - Plautus, Trinummus, Act II, scene 4, lines 12

**Which means that nothing you are feeling is new.  
Isn't it about time we did it differently?**

## What's that in the sky?

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north. ☺

### For all you night owls

Venus emerged last month and now she is very clear and bright on the horizon. Mars is higher and not as easy to see. Look for a red flash as you look west. Then turn around to see Jupiter rising on the eastern horizon. A special treat is the Full Moon close to Jupiter on the 4<sup>th</sup> Feb and this is visible all through the night to the morning. Let the Moon be your guide when she is with Venus on the 20<sup>th</sup> Feb and with Mars on the 21<sup>st</sup> Feb. Taurus the Bull is overhead and slowly sinking to the west through the month. Turn to the south and you will see the Southern Cross on its side with the pointer stars below it.

### For all you early birds

The beautiful Full Moon with Jupiter continues on the 4<sup>th</sup> Feb as they set in the west. Turn around to see Saturn in the east. He is a creamy color compared to the other stars. Let the Moon be your guide when she is with him on the 13<sup>th</sup> Feb.

The Southern Cross is high overhead with the Pointer Stars showing the way. One of these stars is Alpha Centauri and the other is Beta Centauri. I bet you have heard of those in various movies as the aliens always seem to be coming from them ☺. Beta Centauri is three stars, not just one, but you will need a serious telescope to see them individually.

### Let yourself be awed!
