Your Sun Sign Forecast for March

Aries 21 March – 19 April

An easy flow of energy occurs when an adventurous youthful energy or inspiring creative idea takes hold. Follow where it points and keep on making changes. You are helping others to adapt and they will follow your lead. The Full Moon reminds you to be aware of your own health.

Taurus 20 April – 20 May

Make room, for you are expanding. It could be adding something you don't really want to the home, or it could be your waistline so think carefully before you add garbage. Good advice is just that; good advice, so don't ignore it. You can soon attract whatever you are thinking about, so watch what you are thinking.

Gemini 21 May – 20 June

A friend can easily help you make a decision. In fact, ask lots of people what they think and you will be inspired. A group or networks of people seem more important than what is going on at home. But if you ignore those at home, including parents; you will soon find how high their emotions are running!

Cancer 22 June – 22 July

Changes at work, even minor ones, will benefit you, perhaps financially, but definitely your status will rise. Loved ones will not be so happy about it. Does this mean you will be putting all your energy and thoughts into work, rather than them? Think about what they want or need, compared to what you want or need.

Leo 23 July – 22 Aug

Learn, teach, explore, study, or travel. It's time to stretch your life and have fun with it. Your brain is ready to expand and learning is easy. Moan about the cost then do it anyhow. Issues involving what you "should do", will soon fade. And lady luck is coming to help you achieve in the workplace.

Its time to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life. Through them we look to your strengths, especially now and** to the future.

Moe at Gippsdown on the Highway – in the mornings by appointment in the beautiful grounds of Gippsdown Heritage Village on the highway at Moe.

Traralgon –On Sunday the 15th March at Dyoligy "all things beautiful and alternative" shop in Traralgon.

Koonwarra in South Gippsland Saturday 4th April at the Artisan workshop Gardens Studio next to a great coffee place in Koonwarra and its Farmers Market morning!

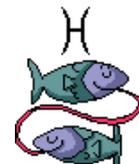

Birthday Greetings go out to

Pisces 19 Feb – 20 March

"You can't depend on your judgment when your imagination is out of focus". Mark Twain

Thank you to the Piscean who shows me the awesome strength in having faith in whatever you do in any given moment.

Aries 21 March – 19 April

"Nothing will ever be attempted if all possible objections must first be overcome". Samuel Johnson

Thank you to the Aries who says it can be done, then does it with gusto. Then turns around and asks, without any hang-ups and with that typical Arian intense look, "what did I forget?" ☺

Gossip Corner

Put these dates in your diary

Sustainability Festival at Coal Creek Village Korumburra Sunday 29th March 2015 from 10 – 2

I will be there so come and say hello.

www.coalcreekvillage.com.au

Virgo 23 Aug – 22 Sep

Let all that is unknown, hidden, secret, spiritual, and mysterious come to you. With this heightened awareness can come fear; but I would focus on the positive aspect and enjoy the imagination and sensitivity offered. It's time to explore the deep inner space behind your thinking mind; for you are much more than what you think.

Libra 23 Sep – 23 Oct

The focus is on your favorite people in life who are either driving you insane or in delight. Maybe it's the same thing! Your life could get very dull and boring without their influence and there will be loads of positives to the changes they bring, so celebrate while you adapt. Expect new friends, or even new loved ones.

Scorpio 24 Oct – 21 Nov

Work, work, work, but you are actually finding that it flows easily. Expect more opportunities, or maybe you see it as more tasks being added to the pile. Somebody will soon be happy to help; so ask for it. Money concerns will bother you, but it will end up well, - eventually.

Sagittarius 23 Nov – 21 Dec

Yes, it's knuckle-down time; so keep working hard. See yourself as a teacher? Ask yourself what will happen if a young person is copying up what you do and how you do it, what you say and how you say it. Do you want them to mimic you? Behave how you want others to behave.

Capricorn 22 Dec – 20 Jan

Home life is energized. I hope it means homework, repairs, or renovations, rather than arguments. Words will not make it beautiful, but a good old fashioned clean-up is good Feng Shu and will make home harmonious. You can also look to the past and let go of inner rubbish affecting your heart and soul.

Aquarius 21 Jan – 18 Feb

This is a perfect month to make or break decisions. They can be small decisions or great

What's that in the sky?

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north.

For all you night owls

Look to the west after sunset to see Venus following the Sun into the horizon. The Moon will dance with Venus on the 23rd and it will be a joy to watch them both disappear. Mars is lower and setting just after the sun and he may be difficult to spot in the Sun's fading glare.

Jupiter is high in the east with the Moon visiting Jupiter on the 3rd and again on the 30th March.

Further to the west is Taurus with bright Aldebaran shining in the bull's eye. High overhead is the Saucepan. You will not find it called this in any book on astronomy but here in Australia we all know it as the Saucepan; a somewhat inglorious name for the sword belt of the mighty warrior Orion.

Turn around to see the pointer stars underneath the Southern Cross which lies on its side. The pointer stars also point the Southern Celestial Pole which is well beyond the Cross. If you watch the sky all night you will see the stars circle this point and you will really feel the majestic movement of the heavens.

For all you early birds

Mercury rises before the sun and if you find yourself awake you may as well watch as he moves over the background of the stars behind him. All it takes is one hour and you will see the stars stay stationary and one spot of light which is Mercury, move slowly but clearly. Let the Moon be your guide when she is near Mercury on the 19th March.

High in the sky is Saturn and the Moon will be near him on Saturday 13th March. Saturn is not that far from the Antares in the head of the Scorpion whose tail is always worth seeing.

Let yourself be awed!

Quote of the Month:

Give thanks and gratitude for the blessings you *have* received. Then give thanks and gratitude for the blessings you are *about* to receive.

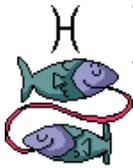

big ones. Go back to basics and ask yourself; Why am I doing this? Why will I succeed? What happens if I don't? Also look to other people as mentors. Who does it the way you want to do it?

Pisces 19 Feb – 20 March

Financial matters and any issues which involve worthy valuables; especially self-worth, is highlighted. It is amazing how much worth (aka money) that you will attract when you are grateful and work. OK yes, I wish the easy life could do it but ask yourself; does the oak tree think its hard work to grow?

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

Autumn Equinox 21st March

At the equinox the Sun enters Aries and is directly overhead at the equator. It will rise due east and set due west. That means that both the northern and southern hemispheres get an equal amount of night and daylight hours. Equinox means equal.

For us it means the seasons are changing and Autumn is really here.

Summer; I already miss you. ☺

Earth Hour March 30th

Turn your lights out at 8pm for 1 hour to inspire awareness and appreciation for the Earth's natural environment.

Ancient Moon Gardening

Gazing out the window I can see the veggie patch and this month the beans are finishing, I hope to beat the birds to the nearly ripe figs, the tomatoes are at their best, and the chooks are busy having a dust bath.

Dates AEST AEDT	Moon Position and Phase	Ancient Moon Gardening Planting and sowing days
1 st And the morning of the 2 nd Mar	Waxing Fertile 2 nd Quarter	Perfect for all sowing and planting. Especially for vegetables that bear fruits or seeds for eating.

News from the Stars

6th Mar Full Moon in Virgo
13th Mar Mercury enters Pisces
15th Mar Saturn turns retrograde
17th Mar Uranus square Pluto
17th Mar Venus enters Taurus
20th Mar New Moon in in Pisces with Solar
Eclipse not seen here.
21st Mar Sun enters Aries
31st Mar Mercury enters Aries

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

Gaining happiness.

In times of stress or crisis

1. Only think about the next 5 minutes
2. Smile whenever you can. Force a smile if you have too, but use those facial muscles. A smile produces endorphins which is Mother Natures natural happy drug. So Smile!
3. Say yes to everything. Accept. To the situation, to the suffering, to any joy, to blessings both ordinary and extraordinary, to the pain. Say yes, no matter what.

Thank You to those that keep me healthy!

Your body is a temple so do something that helps you maintain great health.
