To each and every one of you; look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

## Your Sun Sign Astrology Forecast for Nov 2015

### Aries 21 March – 19 April

You know what you need to do for good health and vitality. A head in the sand approach won't work; being responsible to yourself will. Disruption in the workplace will appear to settle, then flare up. Knowledge and continually learning is your way through any hassles. Loved ones want to have fun so enjoy it.

### Taurus 20 April – 20 May

Intense feelings can be joyful or overwhelming. It's OK to let emotions run their course. Creativity continues to inspire you and can lead to more social events. Enjoy it while it lasts as work place tensions will surface. Your attention will soon be focused on the consequences of actions taken last month.

### Gemini 21 May – 21 June

Home and family become more important. Is it time to renovate or celebrate? You still don't know where you are going in the working world but it's time to be where you need to be; with family and friends. Keep on loving them, even when they try and tell you what to do.

### Cancer 22 June – 22 July

Communication and learning are still important. What is your style of connection? Introvert or extrovert, quiet or loud, restrained or demonstrative? Don't try to be something you are not; be comfortable with your style and you will be brilliant. Oh – and be aware that family discussions can quickly turn argumentative.

### Leo 23 July – 22 Aug

This month it's time to think about values, finances, possessions, and your idea of worthiness. Having a budget, and sticking to it, goes without saying but what are your real values? Write a list of 5 ethical ones that you hold dear. What have you forgotten? When you know your values; life will bring them to you. Don't know; don't get!

### Virgo 23 Aug – 22 Sep

A breakthrough has happened or is still happening. This is the hour to step up to the plate and use the opportunities to create a different life. You are both unique and part of something greater than you think you are. Do what you do well, for you are in good hands; yours!

### Libra 23 Sep – 23 Oct

The goddess of love and harmony enters your sign bringing you to the forefront. You will attract attention and you can ask for what you want and the world wants to help. Mars the god of get energy also enters and boy oh boy.... you are buzzing with get-up-and-go. Laziness can turn into action but be aware that inner tensions can turn into anger.

### Scorpio 24 Oct – 22 Nov

The need to be with others in your tribal group is strong. A tribe is a group of people who have similar goals and similar ways of enjoying oneself. So if you need to go on girl's night out, or be with fellow "blokes", then do it. Team sports events and cultural experiences are part of this. Have fun in your particular tribe.

### Sagittarius 23 Nov – 21 Dec

Opportunities and action abound at work or in the role that the world sees you doing. We all play parts in life. To the world we are one thing, to our friends we are another and to our parents we appear are quite different than to our children. Do you want to change that role or that image? Now is a great time!

### Capricorn 22 Dec – 20 Jan

Learning, or teaching, will hold you in good stead for receiving recognition at work. While you are learning from some; you will teach others. There is fine line when one changes from being the student to becoming the teacher. A famous quote says that a good teacher creates tension - but just the right amount! Change and be changed.

### Aquarius 21 Jan – 18 Feb

Have you had quite enough of mysteries? You like things clear and open, but all that is hidden and all that is secret has meant the truth is obscured by a mist of illusion. Some people deal with this as a manner of course... but you want to know the real reason, and to do this; you must dig for the truth.

### Pisces 19 Feb – 20 March

All relationships are going into a deeper, more meaningful phase. They will tell you their inner feelings and share deep issues with you. If you feel more and more rebuffed or confused it means you are trying to "fix it". All you really need to do is show your concern and your empathy, nod your head and smile with warmth.

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2012 Sun Ingress dates for Australia. *Do you see yourself as the fascinating main character in the wild story of your life?*

*To do so can bring sparkle to your life and help you ride the peaks and troughs.*

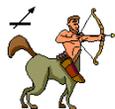

*But always remember that you are much more than your story!*

THE STORY  
SO FAR

**Quote of the Month** *"Anything that gets your blood pumping is probably worth doing."*

Hunter S. Thompson

### When somebody you know is in crisis, try advising this..

1. Only think about the next 5 minutes
2. Smile whenever you can. Force a smile if you have too, but use those facial muscles. A smile produces endorphins which is Mother Nature's natural happy drug. So Smile!
3. Say yes to everything. Accept. To the situation, to the suffering, to any joy, to blessings both ordinary and extraordinary, to the pain. Say yes, no matter what.
4. Plan the future you want 2 years, 5 years and 10 years in the future. Imagine it, and build for it. *See it in your mind's eye.* Small decisions lead to big outcomes.
5. Repeat these steps... over and over and over again. Your life will change.

**It's time** to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life. Through them we look to your strengths, especially now and** to the future, and to see what to avoid, and what to enjoy.

**Moe at Gipps town on the Highway** Weekdays by appointment in the beautiful and peaceful grounds of Gipps town Heritage Village on the highway at Moe.

**Traralgon** On Sunday the 22<sup>nd</sup> at Dyoligy; a gorgeous shop where all things are beautiful and alternative in the heart of Traralgon.

**Koonwarra** in South Gippsland Saturday 7<sup>th</sup> at the Artisan workshop Gardens Studio in beautiful Koonwarra, a tiny historic town with various shops showcasing great food, pampering, healing, arts and culture. It's normally Farmers Market day when I am there so the place is buzzing.

## **Birthday Greetings** go out to

**Scorpio** 24 Oct – 22 Nov

"We don't see things as they are. We see things as we are." Anais Nin.

I've given you this quote before.... but I like it and I thank the Scorpio who, with no judgement, showed me I was looking at the world through my eyes, not as another saw it.

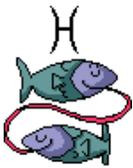

**Sagittarius** 23 Nov– 21 Dec

"In matters of style swim with the current, in matters of principle stand like a rock".

Thomas Jefferson

Thank you to the Sagittarian who shows me that we can be open to seeing things another way while still maintaining our own inner values.

Yes; it was a big amazing awakening month ☺

**What am I getting up to? Everything!** Great dates to put in your diary

**Introduction to Numerology** at Dyoligy in Traralgon on Thursday 5<sup>th</sup> November 5.45 for a 6pm start. Call Dyoligy on 51747576 for bookings.

## **What's that in the sky? November 2015**

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north. ☺

The darkest night is on the New Moon on the 12<sup>th</sup> and the brightest night is with the Full Moon on the 26<sup>th</sup> November.

### **For all you night owls**

Be quick if you want to see Saturn as he will soon disappear into the evening sunset as he chases the Sun to bed. The Scorpion will be right behind him so both are barely visible. There will be plenty of stars, but no planets; so it's a quiet month in the evenings. Taurus, with Aldebaran in his eye and the Pleiades in his heart, will be clearer at midnight but that's when we are all tucked up in bed. Turn south to see the Southern Cross swinging low and upside down and barely visible, especially if hills or trees obscure your vision.

### **For all you early birds**

The planets are busy in the mornings when most of are asleep. Jupiter, Venus and Mars rise in the east at about 4.30. Jupiter is the highest and Venus and Mars will be flirting behind him at their closest conjunction on the 5<sup>th</sup> November. The crescent Moon joins them on the 8<sup>th</sup> November and after that, Mars races off trying to catch Jupiter. The great goddess is seemingly abandoned by the men-folk but in true goddess mode she is more than happy to rule on her own.

At the same time, Taurus, Aldebaran and the Pleiades are high overhead with the Saucepan even higher. Turn south to see the Southern Cross on its side swinging higher as the month passes.

**Let yourself be awed!**

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!
