A Sight Worth Seeing!

Get up early to see all the planets as well as the ISS, the international space station, at 5.20am Wednesday 9th March in Southern Victoria.

I will be up and smiling and waving hello at the astronauts inside!

To each and every one of you; look at the earth and know that you are supported, look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Astrology Forecast for March 2016

Aries 20 March – 19 April

This is a great time to find moments of peace in any spiritual place, be it indoors or out. You need it; as it's soon time that you will willingly accept greater responsibility at work or in a public role. There will be a few hassles but there will be no problems that are surprising and you will deal with it easily.

Taurus 20 April – 20 May

A group event brings smiles which help when you learn that you are more creative, in a practical way, than you think. Life is a great teacher so allow it to open your imagination. Children encourage you to venture further than you are comfortable but let yourself remember what it's like being young and think you know it all. You might!

♊

Gemini 21 May – 20 June

Exposure in the work place or with any public role may leave you feeling....well...exposed! This can bring benefits from authority figures but not from argumentative co-workers. Let's hope they let off steam elsewhere. At home, or with family, you need to face decisions that you may not like having to make and face somebody who doesn't like the consequences.

It's time to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab hold of life. Through them we look to your strengths, especially now and to the future, and to see what to avoid, and what to enjoy.

Moe at Gippsdown on the Highway

Various weekdays by appointment in the beautiful and peaceful grounds of Gippsdown Heritage Village on the highway at Moe.

Traralgon On Sunday the 20th March at Dyligy, a gorgeous shop where all things are beautiful and alternative in the heart of Traralgon.

Koonwarra in South Gippsland Saturday 5th March at the Artisan workshop Gardens Studio in beautiful Koonwarra. A tiny historic town with various shops showcasing great food, pampering, healing, arts and culture. It's normally Farmers Market day when I am there so the place is buzzing.

Phone readings for those at a distance at a time that suits you.

Like to Like my facebook pages?

Would you like to like "Ancient Moon Gardening" Facebook page where I put things of interest to sustainable and abundant gardeners.

Also like my Facebook site called "Kerry Galea" where I put all sorts of things of general interest to explorers of the inner world and outer world.

Cancer 21 June – 21 July

Who is the restless one? Feeling dissatisfied? Get your skates on and get moving. Do whatever takes your fancy as long as it is something you have not done it before or not done it in years. Talk to somebody that looks interesting. Go anywhere you feel like. Use this time to explore and you will enjoy the experiences.

Leo 22 July – 22 Aug

You can feel the lack of abundance in finances as well as self-worth but spending money will not fix any problems. It may seem the right thing to do but is it going to affect the outcome? Will it be more than a placebo? Will something heartfelt be just as good; even better? Look deeper to see what is implied rather than said.

Virgo 23 Aug – 22 Sep

Stop analyzing emotions. Allow loved ones some freedom and recognition. Stop trying to figure out why they do what they do. Yes, you will worry but surrender it to the universe. Allow love to change you, allow creativity to move your heart and fulfill you. Youth and youthfulness will be transformative, rewarded and protected.

Libra 23 Sep – 22 Oct

It's time to take responsibilities seriously and this includes being responsible for your own health. When emotions run high remember that there is a world of difference between being assertive and being angry; so choose your words with care. Look to the past to understand to resolve family tensions as you may simply be repeating inherited patterns.

Scorpio 23 Oct – 21 Nov

Stop and think again before you take the risk. You are thinking more like a gambler than perhaps you should. Remember that the odds favor safe bets but still enjoy the excitement on offer. Be abundant. A poor person that lives with a sense of abundance

Birthday Greetings go out to

Pisces 19 Feb – 19 March

“Resolve to be tender with the young, compassionate with the aged, sympathetic with the striving, and tolerant with the weak and strong. Sometime in life you will have been all of these”. Robert Goddard.

Thank you to the Piscean who shows that it's perfectly OK to be all these things and perfectly OK to behave all of these ways.

Aries 20 March – 19 April

“Success is not gained by perfecting the known, but by imperfectly seizing the unknown.” Kevin W Kelly.

Thank you to the Arian who shows that one can embrace change and venture into a new life and a new adventure..... at any age! Good on you!

Q. What am I getting up to?

A. Everything! 😊

Last month I was guest speaker for the great ladies of Traralgon Probus. What a lively vibrant bunch you are and I thank you for a very enjoyable time!

Workshop on May 3rd The Essence of Astrology at the Warragul Community Centre. 1 – 3pm

This will focus on your Sun Sign Moon Sign and Venus Sign. Call the center on 56236032 for bookings.

Ancient Moon Gardening

Gazing out the window I can see the veggie patch and this month I am knee deep in tomatoes and the freezer becoming loaded with passata sauces. Some with my eggplants, some with mushrooms and all with my herbs!

The beans are giving of their bounty and the cucumbers are slowing down probably because I did not look hard enough for the fruits and found a few super large cucumbers hiding in the pumpkin tangle that threatens to take over the garden!. As with most plants, cumpers will stop producing flowers and fruit once they think they have some seeds ready to drop in order to

is truly happy. A rich person that lives with a sense of poverty is miserable.

Sagittarius 22 Nov – 20 Dec

Accept opportunities that put you in a position of leadership as you will have the energy and the motivation to help you with the work required to achieve success. Your understanding of what makes people comfortable will help you make changes in any hierarchy. It's just as important to make yourself comfortable so rest while at home!

Capricorn 21 Dec – 19 Jan

This is a great time to speak, to negotiate, to discuss, to make decisions, to talk to anybody and even to write. You have the gift of the gab and could sell snow to the Eskimos! There is a world out there to explore, so get up and get out and feel free. Transform your life or life will do it for you.

Aquarius 20 Jan – 17 Feb

All financial dealings are in the spotlight and you need a plan, a budget or an aim. What makes your feel worthy? Is it what you have? Do you really need it? This also applies to self-worth so love who you see in the mirror. Any decisions will have long lasting ramifications so make up your mind carefully.

Pisces 18 Feb – 19 March

People will look to you to give them advice as you really do have great ideas, wisdom and forethought. Tensions can occur at work but only because the stars are smiling on you and not on them. Forgive them, and then help them, with all the clarity and insight that is available to you.

These symbols have a mind of their own, and will only line up if your screen size is the same as mine. I love their crazy antics! Where will they end up next. ☺

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs.

propagate the species! Take away the fruit and they will immediately produce more flowers and hence more fruits for us to eat.

The Autumn issue of Ancient Moon Gardening Super Almanac and the Easy Planning Calendar has been sent out to all members. Happy gardening to you all!!

25 th 26 th 27 th 28 th and 31 st March	Waning Fertile Moon 3 rd Quarter	Plant root crops

AEDT Times are correct for VIC NSW TAS. Subtract 1 hr QLD. Subtract ½ hr SA. Subtract 3 hrs WA. Subtract 1.5 hrs NT. Add 2 hrs NZ.

The Super Almanac has timing for every possible garden task. Pop over to my website to see a copy for yourself.

Enjoy your garden!

Kerry Galea www.ancientmoongardening.com.au

The dates here are the 2015 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

It's the Time of Change with the Autumn Equinox on the 20th March

The seasons are changing and according to Mother Nature this is the start to Autumn. At the equinox the Sun is directly overhead at the equator. It will rise due east and set due west. That means that both the northern and southern hemispheres get an equal amount of night and daylight hours. Equinox means equal.

Celebrate Easter Friday on the 25th March and Easter Monday on the 28th March

Is the Sunday after the Full Moon that comes after the Autumn Equinox. This represents resurrection, new life, new hope, and the beginnings of a fruitful (in the northern hemisphere) season.

Eggs, symbolize new life.

The Easter Bunny is linked to hare, the Egyptian symbol of fertility.

Easter may have derived its name from the Saxon goddess Eostre, whose feast was celebrated each spring at about this time. Or it may have derived from the word oster, meaning "rising."

Earth Hour March 30th

This is a national campaign for us all to turn out lights out at 8pm in inspire awareness and appreciation for the Earth's natural environment. Can you cope with one hour without light or power?

News from the Stars

5th March Mercury enters Pisces

6th March Mars enters Sagittarius

9th March New Moon in Pisces with total

Now you know when to plant – you will want to know when to

- prune to enhance growth,
- prune to reduce growth,
- fertilize,
- weed,
- harvest crops
- treat pets for fleas and ticks
- manage plant and animal diseases
- and make gardening easier!
- Haircuts and

What's that in the sky?

What's that in the sky?

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north. The gloomiest darkest night is with the New Moon on the 9th March and the brightest is with the Full Moon on the 23rd March.

For all you night owls

Jupiter sparkles as the brightest light in the eastern skies. He is joined by the Moon on the 22nd March. Ancient lore says that little things become big, and big things become bigger when these two are together.

By midnight Mars and Saturn appear rising in the east, either side of Antares, the star in the head of Scorpio. The Moon lies beneath them on the 29th March.

Aldebaran, in the eye of Taurus the Bull, is directly to the north. Higher to the left is Betelgeuse the star embedded in Orion the Hunters armpit. He is upside down for us and our Saucepan is actually his sword belt. To give you some visuals to see his size; the cluster of three stars to the left of Betelgeuse is Orion's face and his arm with sword at the ready, is raised over his head.

Sirius the dog star is high overhead... anyone knowing the Harry Potter series will know of his Godfather Sirius who could transform into a dog. Ancient myth meets modern mythmakers!

Turn around to see the Southern Cross riding high in the heavens. The two bright pointer stars will show you the way as they have shown the way home to travelers for thousands of years. We actually have more interesting stars than the northern hemisphere and some people travel just to see the Southern Cross and all the wonders sparking here in the beautiful Southern Hemisphere skies.

Solar Eclipse visible in the North of Australia

Also see all the planets plus ISS, the international space station, at 5.20am in Southern Victoria. I will be watching ☺

12th March Venus enter Pisces

17th March Jupiter in Virgo trine Pluto in Capricorn

20th March Sun enters Aries

22nd March Mercury enters Aries

23rd March Full Moon in Libra with partial Lunar Eclipse visible here in Australia

23rd March Jupiter in Virgo square Saturn in Sagittarius

25th March Saturn turns retrograde in Sagittarius

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life. Enjoy the ride!

Thank You to those that keep me healthy!

Your body is a temple so do something that helps you maintain great health. Pop over to my website to see the practitioner's page to find somebody perfect for you.

www.kerrygalea.com.au

Thank You to every single one of you as we smile back at the world together!

For all you early birds

See Jupiter setting in the west as the sun rises in the east. The Moon is closest to Jupiter on the 22nd March.

Mars and Saturn are high overhead with Antares, in the eye of the Scorpion, between them. Look higher to see the huge sweep of the Scorpions tail curving through the stars. The Moon joins the party and will lie beneath them on the 1st March and again on the 29th and 30th March.

Venus is just visible and only for a short visit as she is low on the horizon and visible just before the sun rises. If you can see the Moon on the 8th March you will be able to see Venus close by.

The Southern Cross is high and will lay on its side through the month as it circles around the Southern Celestial Pole. Just as we have a north and south pole, we also have a north and south celestial pole around which the stars appear to circle. This is clearly seen if you were to watch the stars all night! Yawn... they are good to watch but not enough for me to sit outside for a whole night!

Let yourself be awed!

Quote of the Month:

Reading an article on the Buddhist mindset (Eric Teichmann) I learnt that happiness is much more than "thinking good ideas" and that 4 mindsets are important to happiness.

Friendliness which is meeting everyone, "old or new, with spontaneous warmth and connection towards them".

Equanimity is "surfing the waves of life with all its ups and downs" with calm composure.

Compassion and Sympathetic Joy are ideas that I will you ponder on for another day. ☺

A thought for you....

From *Reasons to Stay Alive*

"How to stop time: kiss.

How to travel in time: read.

How to escape time: music.

How to feel time: write.

How to release time: breathe."

Matt Haig
