

Earth Moon and Stars

June 2016 with Kerry Galea

I would love to see the Solstice at Stonehenge!

Ph: 0419 382 131 Email: kerry@kerrygalea.com.au Web: www.kerrygalea.com.au Web: www.ancientmoongardening.com.au

To each and every one of you; look at the earth and know that you are supported, look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself

Your Sun Sign Astrology Forecast for June 2016

Aries 20 March – 19 April

There is a huge focus on detail and duty. Yes... a real drag! You will get bogged down with work, waste time gathering pieces of paper, or distracted by gossip; and you will miss the truth. This veil of delusion is mostly self-imposed and can stop you from looking for higher knowledge or from consulting with those that have the knowing.

Taurus 20 April – 20 May

The playful side of your personality is feeling squashed, even your secret hopes flounder before they are birthed. You know that you have much to learn of life; and this is renewed with opportunities that come later in the month with a surge of realization and self-understanding which leads to new habits, new behaviors and a new approach to life.

Gemini 21 May – 20 June

Get started and don't hold yourself back. There is a dynamic between your extended family, your partner or close friends, and your work colleagues. They all have vastly different expectations of you; and of each other. Which one do you satisfy? Do you really need to appease anyone other than yourself, your values and your ethics? Be yourself!

Cancer 21 June – 21 July

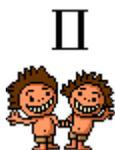

Those with health concerns need to double-check appointments, doctor's comments, dosages, and advice. Dr. Google is not good advice! Those travelling may find plans change due to delays; so be prepared. For the remainder; I suggest that you welcome the coming of some peace and quiet before life hits the fast-lane later in the month.

Leo 22 July – 22 Aug

It's time to start laying down plans for the future and tighten the budget. Are you completely aware of all debts or are you in denial? Regarding the future....ask yourself.... Why am I doing this? What happens if I succeed? What happens if I don't? Yes... that's a lot of questions but it's only by asking that you will determine your future.

Virgo 23 Aug – 22 Sep

The needs of home life and extended family could prevent you from achieving long wanted goals if you let them. These goals are within reach and will only take a little risk, a little time and some courage. You will have the energy; so go out and do it! Other people want to help but they don't know how; you do.

Libra 23 Sep – 22 Oct

This month's bliss is that you will be noticed by the world for doing the work or role you are fulfilling. This month's issue is that you will have difficulty expressing yourself? Words will not flow easily and in fact, you may even feel shy or tongue-tied. It's a good idea to write down your feelings and thoughts.

Scorpio 23 Oct – 21 Nov

This month is about money and self-worth. You are either better off than you think, or you are worse off than you

think so have a cold and clinical look at your finances. You will lose if you have loaned money, or taken risky investments. You will also lose if you let somebody put you down or diminish you.

Sagittarius 22 Nov – 20 Dec

You will temporarily find yourself doing what you would rather not do. Some people will want you to live up to their expectations, while others will help. Confusion is also temporary and the positive way is to think of this as a time when divine inspiration or an epiphany of realization can occur. Look for the ah-ha moment!

Capricorn 21 Dec – 19 Jan

Information and knowledge that you find, or will be given, will not be the whole truth, nor will it cover all possible consequences. Keep on asking from multiple sources, nevertheless I recommend that you don't make any important decisions this month. Yes; you can quite happily go on a holiday or travel for pleasure or for family.

Aquarius 20 Jan – 17 Feb

Sometimes it's a time to think of the big picture but Not Now. For you it's time to be aware of details... golly yes... details! I know it is not your strong point but it can be... if you decide it is. Details can be the small beautiful things that continually happen around us. Work with them and you will be in-flow.

Pisces 18 Feb – 19 March

Some say that Pisces represents martyrdom and normally I would argue against that image, but this month you could actually do it! Why sacrifice your beliefs and your ideals? Maybe you could if it's a win-win situation, but I worry that you will end up being the loser if you are unaware of the consequences. Consider yourself to have been made aware!

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year? If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2015 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

Winter Solstice – The Shortest Day of the Year!

The solstice, meaning stand-still, is the day that the Sun enters the zodiac sign of Cancer reaches its lowest point in the day time sky.

On the day of the Winter Solstice In ancient times the ancients would pray to the gods and ask that the Sun be returned so they could survive the Winter. They must have been pleased that their prayers were answered, for the Sun always returned! 😊

It is the summer solstice in the Northern Hemisphere and the winter solstice here in the Southern Hemisphere.

The Winter Solstice marks the shortest day, but it's not the coldest. That will come over the next couple of months as the land and oceans continue to cool down, affecting the air temperature. Because of this, the Earth's temperature takes about six weeks to catch up to the sun. We will just have to wait for a while for the weather to get warmer!

Quote of the Month:

"Kindness is like snow.

It beautifies everything it covers."

Kahlil Gibran.

Let's think about kindness..... What is it?

What does Kindness look like to you?

Does it look the same to you as it does to your loved one; to your kids, to your friend? Ask them!

Prepare to be amazed.

One Easy Recipe for Happiness

Wake up and before you open your eyes, smile... yes move those endorphin producing facial muscles; and smile. Say "thank you" and give gratitude to the whole universe.

Smile again ☺

See in your mind's eye the day's activities and imagine them unfolding with ease and harmony.

Get upand put one foot in front of the other.

Thank You to every single one of you as we smile back at the world together!

It's time to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life**. **Through them we look to your strengths, especially now and** to the future, and to see what to avoid, and what to enjoy.

Moe at Gippsdown on the Highway on weekdays by appointment in the beautiful and peaceful grounds of Gippsdown Heritage Village on the highway at Moe.

Traralgon On Sunday the 19th June at Dyoligy, a gorgeous shop where all things are beautiful and alternative in the heart of Traralgon.

Koonwarra in South Gippsland on Saturday 4th June at the Artisan workshop Gardens Studio in beautiful Koonwarra, a tiny historic town with various shops showcasing great food, pampering, healing, arts and culture. It's normally Farmers Market day when I am there so the place is buzzing.

Phone readings for those at a distance at a time that suits you.

Birthday Greetings go out to

Gemini 21 May – 20 June

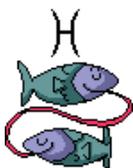

"Get your facts first and then you can distort them as much as you please" Mark Twain

Thank you to the Gemini who showed me that there is usually a deeper reason behind a person's actions. What looks like an angry response is really the only way a person in fear and grief knows how to react. What we think are the facts, is in reality only the tip of the iceberg!

Cancer 21 June – 21 July

"I cannot live without that blanket. I cannot face life unarmed" Linus from the Peanuts cartoon by Charles Schultz.

I love this quote and I send thanks and love to the Cancerian who showed me that within us all is the "blanket" that arms us, that protects us, which nurtures us and which warms our soul. What form does your "blanket" take? Is it a thing, an action, a substance, a place, a person, a feeling?

News from the Stars in June

5th June **New Moon** in Gemini

13th June Mercury enters Gemini

14th June Neptune turns retrograde

18th June Saturn square Neptune
18th June Venus enters Cancer
20th June **Full Moon** in Sagittarius
21st June Sun enters Cancer heralding the Winter Solstice.
26th June Jupiter trine Pluto
30th June Mars turns direct
30th June Mercury enters Cancer

The movement of the planets herald time when we feel mood changes, times we are galvanized to take action, and others times when we lack energy. **There are shifts in feelings and energy levels at all New and Full Moons**, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life.

The Moon's Rhythm

To further experience the rhythm of the Moon I suggest that you aim to start new projects and events at the New Moon, and bring them to full development approximately two weeks later at the Full Moon. From the Full Moon back to the New Moon is a time to look at the consequences, to reflect on what you achieved and to think about changes or new ideas that you will "birth" again at the New Moon.

Enjoy the ride!

What's That in the Sky this June

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north. ☒

The darkest night is on the New Moon on the 5th June while the brightest night is with the Full Moon on the 20th June.

For all you night owls

Directly ahead to the north is Jupiter and the Moon will join him on the 11th June; a sight worth an evening stroll. Further to the east (right) is reddish Mars close to reddish Antares in the head of the Scorpion and not far away is creamy colored Saturn. Let the Moon be your guide when she joins with the Mars on the 17th and with Saturn on the 19th June.

While I must admit it does take time to find Mars and Saturn, it is worth just looking to see the Scorpion. What a glorious sight and so clear, rising higher and higher through the month. You will see a huge curved tail and he is easy to spot once you know how. Make it this month's new thing to learn and amaze others when you point him out. Then turn around and look south to see the two bright Pointer Stars doing as they do best and "pointing" at the Southern Cross on their right. The Pointer Stars, Alpha Centauri and Beta Centauri, also known as Hadar, are part of the constellation of the Centaur Chiron, half-horse half-man, credited with starting healing and the beginnings of medicine.

For all you early birds

Mars and the Scorpion are setting rapidly into the west and will completely disappear from the predawn skies before the month is over. Saturn is a little higher and he will take longer to fall from the skies and disappear. Turn to the east to see if you can spot Mercury who appears briefly very low in the east. While hard to spot, I suggest that you let the Moon be your guide for; if you can see the Moon on the 3rd and 4th then you can see Mercury close by. Turn to the south to see the Southern Cross upside down and below the Pointer Stars.

Let yourself be awed!

Ancient Moon Gardening

Gazing out the window I can see the veggie patch and last month I tidied up old stalks and dug over sections. Who needs a gym membership when you have a garden?

I also pulled out the last of the basil and for the first time I made my own Pesto. Don't tell anyone but I actually prefer the shop bought one! My recipe clearly needs improvement but at least I can add what I have made into casseroles.

I finished planting some climbers, some shrubs and had a severe talking to the Nandina in hopes that it would improve on its red coloring. Buy cheap market unknown varieties.....repent at leisure!

How does your garden of life grow?

Dates AEST	Moon Position and Phase	Ancient Moon Gardening Planting and sowing days
5 th June	New Moon in Gemini	Rest and do nothing. Cultivate and grow the skill of listening.
7 th 8 th June	Waxing Fertile 1 st Quarter	Perfect for all sowing and planting. Especially for vegetables whose leaves we eat.
13 th 14 th 15 th 16 th 17 th Until lunchtime on the 18 th June	Waxing Fertile 2 nd Quarter	Perfect for all sowing and planting. Especially for vegetables that bear fruits or seeds for eating.
20 th June	Full Moon in Sagittarius	Official gardeners rest day so do nothing. ☺ Harvest and share beliefs in faith and understanding
22 nd 25 th 26 th 27 th June	Waning Fertile Moon 3 rd Quarter	Plant root crops

AEST Correct for VIC NSW TAS QLD. Subtract ½ hr in SA. Subtract 2 hrs in WA. Subtract ½ hr NT. Add 2 hrs NZ
