To each and every one of you; look at the earth and know that you are supported, look at your hands and know that you are unique, and look at the stars and know that you are part of something greater than yourself.

Your Sun Sign Astrology Forecast for September 2016

Aries 20 March – 19 April

This month starts a new period which brings creativity and new friends, new ways to spend time with loved ones and even new people to love! This is also great month to start new health routines and to change eating patterns, but it's also a month with some confusion although the good news is that this is only temporary.

Taurus 20 April – 20 May

Buried tensions will soon be released. You may not believe it yet.... But you will find that work brings you a sense of fulfillment and purpose; even mundane work can help you expand and help your personal growth. It can also mean a change of job over the coming year although remember that not all "work" is paid employment.

Gemini 21 May – 20 June

Unsettling people in the outer world will soon calm down but until then I bet it rattles your sense of peace. So fluff up your home nest and stay out of the way. You won't be noticed or even missed....for a while. A creative time is beginning and a great side effect is that relationships will improve over the coming year.

Cancer 21 June – 21 July

Health issues needs good advice and I mean "good" advice. If you are not happy then see somebody else. I suggest that you relax your body and then listen to it. Over the coming year you are coming into a sense of greater comfort with yourself and the desire to move or to expand your home.

Leo 22 July – 22 Aug

A dash of good fortune may not be enough to counter recent risky behaviors but I would make as much use of that "dash" as you can! Being confused, or feeling kept in the dark, especially about your finances, does not help. Your plans for the future soon take a positive direction and may involve training or travel which broadens your horizons.

It's time to see what's happening for you.

In my work I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab **hold of life**. **Through them we look to your strengths, especially now and to the future, and to see what to avoid, and what to enjoy.**

Moe at Gipps town on the Highway various weekdays by appointment in the beautiful and peaceful grounds of Gipps town Heritage Village on the highway at Moe.

Traralgon On Sunday the 25th September at Dyoligy, a gorgeous shop where all things are beautiful and alternative in the heart of Traralgon.

Koonwarra in South Gippsland on Saturday 3rd September at the Artisan Gardens Studio in beautiful Koonwarra. This is a tiny historic town with various shops showcasing great food, pampering, healing, arts and culture. It's normally Farmers Market day when I am there so the place is buzzing.

Phone readings for those at a distance at a time that suits you.

Birthday Greetings go out to

Virgo 23 Aug – 22 Sep

"Striving for excellence is stimulating and rewarding; striving for perfection – in practically anything – is both neurotic and futile."

Edwin C. Bliss

Golly, Edwin must be a tell-it-like-it-is type of person. Point taken. Thank you Mr. Bliss.

Libra 23 Sep – 22 Oct

"When I come to you, we talk for hours. If I am going to take hours of your time, I ought to unfold for you, and to be sure that it is myself that I give." Mary Haskell

Thank you to the Libran who unfolds for all she meets. You are a delight..... all of you Librians! ☺

Virgo 23 Aug – 22 Sep

Let yourself go slow, think deeply and take time to make up your mind. Don't let family tensions or confusion lead you away from your own onward path. New horizons are opening up and its time to pay attention to a changing sense of what is worthy to your ideals, including the worthiness (or not) of possessions and your financial future.

Libra 23 Sep – 22 Oct

Your ability to talk and to communicate is not flowing well and while well intentioned, it has created misunderstanding. The good news is that it will change as the month progresses and the stars seem to turn around and smile upon you. You are entering a year of changes as you become empowered...so leap, learn and grow.

Scorpio 23 Oct – 21 Nov

You still need to sort out some financial issues that have blinded you. It's not long until it will be sorted.... so do it properly while it's so prominent in your mind's eye. Then become a seed and allow yourself to be hidden while you develop good strong new roots. Seek peaceful places and people and if inclined; start on a spiritual journey.

Sagittarius 22 Nov – 20 Dec

What a prickly time you have had! But it's turning positive now as your star is rising, just like an emerald (deeper and more mysterious than a diamond) that is seen and loved. I have to admit it would be great if people said so... but they cannot just yet. Do you at least see that you are shining....I do!

Capricorn 21 Dec – 19 Jan

Are you seeing the beauty of nature and experiencing beautiful events? If a holiday has not happened for you; then doing holiday things in any spare moment will be somewhat close to the real thing. While you are resting your soul, the world is starting to see you in a new light and your status will rise in the coming months.

Aquarius 20 Jan – 17 Feb

What is worse; knowing that "something" is wrong compared to knowing "what" is wrong? There are hidden secrets or knowledge that you cannot do anything about until you know for sure what they are. Therefore, trust that the time for action is not yet here and figure out how to get more knowledge. Does this mean exploration or study?

Pisces 18 Feb – 19 March

Confusion and trouble with authorities has you wishing you had kept your head low. Hang in there; for its soon over....and what comes is greater connection to people in all areas of life along with gaining rewards for your efforts. This helps you gain a deeper sense of personal growth and understanding of other people.

What am I getting up to? Everything!

A great date to put in your diary!

Physic and Wellbeing Expo

Lardner Park Warragul

11th September 10am- 5pm

I will be there for readings, so call by and say Hello 😊

Father's Day 4th September

Instead of memories and tears, or cards and undies..... Ask your Dad.....

What advice can you share about life, happiness and money?

What does being a Dad mean to you?

What are you most proud of?

How would you like to be remembered?

You are doing the best you can with what you have.... So did he!

What's that in the sky? September 2016

To be amazed by the heavens, first get your bearings and note that the sun rises in the east, sets in the west and the warmest side of the house is north. The darkest night is on the New Moon on the 1st September and the brightest night is with the Full Moon on the 17th September.

For all you night owls

You will see Jupiter close to brilliant Venus, along with tiny Mercury, about 6pm sitting on the western horizon just after sunset. As the month progresses, Venus will get further and further away from the Sun until she is easily seen for a few hours as the gorgeous Evening Star.

Look overhead to see Mars and Saturn with Antares and the Scorpion rearing over them all. The ancients would have called this a bad omen for the King due to the presence of the god of war and big bad bitey things hanging around. To complete the party, the Moon joins them 9th Sep. They are all close to the edge of the Milky Way which many ancient cultures said was the birth place of the galaxy..... and darn it; it is, for its Big Bang territory! Turn south to see the Southern Cross resting on its side and it will turn lower as the month progresses.

For all you early birds

There are no planets to be seen as they are all following the sun and once the sun is up..... we cannot see them! What is clearly visible

Did you know that the Sun moves into the 12 signs of the zodiac on *slightly* different dates each year. If you are born close to the border of two signs then you are on the cusp and you are a blend of the two sun signs. The dates here are the 2015 Sun Ingress dates for Australia. Source is Solar Fire from Esoteric Technologies.

News from the Stars

1st Sep **New Moon** in Virgo
with a minor Solar Eclipse not visible in Australia
3rd Sep Sun opposite Neptune
9th Sep Jupiter enters Libra
10th Sep Saturn square Neptune
17th Sep **Full Moon** in Pisces
with a minor Lunar Eclipse visible in Australia.
22nd Sep Mercury turns direct
23rd Sep Sun enters Libra
24th Sep Venus enters Scorpio
27th Sep Pluto turns direct
27th Sep Mars enters Capricorn

The movement of the planets herald time **when we feel mood changes, times we are galvanized to take action, and others times when we lack energy.** There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and **notice your feelings and energy levels.** This understanding will enhance your experience of life.

To further experience the rhythm of the Moon I suggest that you aim to start new projects and events at the New Moon, and bring them to full development approximately two weeks later at the Full Moon. From the Full Moon back to the New Moon is a time to look at the consequences, to reflect on what you achieved and to think about changes or new ideas that you will “birth” again at the New Moon.

Enjoy the ride!

directly north is the Pleiades, also known as the seven sisters. Above them is Aldebaran, the fixed star in the eye of the Bull, Taurus. Above and slightly to the right (east) is Orion’s Belt, known here as the Saucepan. It asks in the bible “Canst thou bind the sweet influence of Pleiades, or loose the bands of Orion.” The answer is.... no we cannot, for the universe in all its glory is greater than us all.

Let yourself be awed!

Spring Equinox 23rd September

At the equinox the Sun is directly overhead at the equator. It will rise due east and set due west. That means that both the northern and southern hemispheres get an equal amount of night and daylight hours. Equinox means equal.

Quote of the Month:

“Yes” is a magic word!

At the start of every day.... Say Yes to it. Stuff will happen!

Always say 'yes' to the present moment... Surrender to what is. Say 'yes' to life - and see how life starts suddenly to start working for you rather than against you. Eckhart Tolle

Say Yes and you will figure it out afterwards. Tina Fey

Say Yes to life and life will say Yes to you.

Ancient Moon Gardening

Gazing out the window I can see the veggie patch and this month it needs work! Preparation for planting work!

I was away last month experiencing wildflowers and whales in Western Australia! I thought we were too early for the flowers but their wettest winter meant an early blooming and oh my goodness.. the colors exploded out of scrubby little bushes, or sprung out of seemingly bare ground! Amazingand you all deserve to witness it for yourself.

The Stuart Desert Pea was just a weed growing randomly in the stony grounds of front nature strips and the locals took it for granted. Mother Nature is awesome!

I recently posted and emailed out the Moon Gardening Almanac and Easy Planning Calendars for Spring and feel the satisfaction and joy of birthing my latest and greatest baby. Yes... creativity is like having a baby... only not so physically painful! May your creative times be just as wonderful. ☺
