## Your Sun Sign Astrology Forecast for July 2017

### **Aries** 21 March – 19 April

Looking after the house and the family is where the focus is this month. There is really no need to be in a frantic rush to get everything done and chasing dust is a waste of time. Do what is necessary and prepare to enter a time of celebrations, intense creativity, or a time when young people dominant your life.

### **Taurus** 20 April – 20 May

This is a great time to learn the truth, and to make decisions. It's time to be heard and have your opinions valued. This is so big that there may be a tendency to shout if they don't listen. Have they ever listened? Are they going to listen now? Who are the ones that are listening? Value yourself and value them.

### **Gemini** 21 May – 20 June

Look after your valuables and that also means how you value yourself. But it mostly means this is a time to focus on earning ability, money and debts and to look closely at which one needs to be corrected; for you need to correct it soon! Luckily you will have help if you choose to ask for it.

### **Cancer** 21 June – 22 July

What does being yourself really mean to you? It's time to be yourself and to stand up and be counted in your own unique way. Be passionate and trust in yourself. People are more worried about how they appear, than they are about you. The ones that matter will help you to shine. Try and stay away from tensions at work.

### **Leo** 23 July – 22 Aug

There is a deep need for some peace and quiet. Quite different to the exuberance of a holiday but similar to the peace in a sacred space, a church, sitting in the bush or on a boat pretending to fish. Seek out your favorite peaceful place and notice everything but think of nothing. It is here that you will find inspiration.

### **Virgo** 23 Aug – 22 Sep

You are making big plans and it's good to connect with like-minded people who also see your idea of the future. Look for inspiration which can come from a very unique and individual person or group. Lady luck smiles upon you in the workplace; so ask for what you need, and also ask the boss for what the entire team needs.

### **Libra** 23 Sep – 22 Oct

There are many roles in life. Our roles at work, at home, in relationship, in parenthood, in friendship, in community... you get the idea. We accept a style of any role at an early age. What role are you concerned with and why? Roles don't have to stay the same; so revise and rewrite the role in the style of your choosing.

### **Scorpio** 23 Oct – 21 Nov

This is a time to learn, to explore, to travel, to escape, to find god, to see different ways of life and cultures, to investigate law and to reach greater self-understanding. You are open to new ideas and your choice is how to do it. If you tried to resist, the restlessness will become huge! It's easier to go with the flow.

### **Sagittarius** 22 Nov – 21 Dec

There are obvious causes and effects where doing A leads to outcome B. But this is a time where hidden factors result in effects where doing A results in outcome D. Its time to put on your detective hat and seek out and uncover lurking secrets. Also, carefully look after your money as D for debt might be happening.

### **Capricorn** 22 Dec – 19 Jan

Other people are a heck of a lot more motivated and energized than you are. But for a few weeks at least, your world revolves around them, so get used to the high energy. It's a time to make new connections and re-activate old ones. It's also a time to compete, to listen, and to see yourself as others see you.

### **Aquarius** 20 Jan – 18 Feb

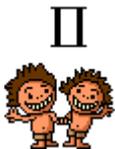

This is a time of responsibility and service. This includes responsibility for yourself. Soldiering on for others is not helping them, least of all you. What do you need to do to increase your vigor and fitness? Get rid of old habits and start new ones. Other people need encouragement, especially those you work with.

### **Pisces** 19 Feb – 20 March

Duty, work and responsibility are soon coming... so enjoy most of this month which is simply about being creative, being daring, celebrating the moment, and letting life be as fun as you can make it. You need life to be simple for a while and in this space, you will see the glimmer of the silver lining in any dark clouds.

We do not go around the Sun in a perfect circle each year so the dates that the Sun appears to move into the signs can vary by up to one day.

If you are born close to the border of two signs, then you are on the cusp and you are a blend of the two sun signs.

**Is it Time to have a Reading** to see what's happening for you?

In my work, I will always use both Astrology and Palmistry. The Stars show your potential and your hands show how you grab hold of life. Through them we look to your strengths, especially now and to the future, and to see what to avoid, and what to enjoy.

**Next season (August and some of September) is a joyous and busy mad-house of a time, and what with helping family and taking a break, I still don't know what days I will be available (if any), so I suggest that you have your reading in July.**

**Moe at Gippsdown on the Highway** on various weekdays by appointment with extra days available.

**Traralgon** On Sunday the 16<sup>th</sup> July at Dyoligy of Traralgon, but since August is so very interesting/busy/enjoyable, I will have extra days in July as required.

**Koonwarra** in South Gippsland on Saturday 1<sup>st</sup> July in beautiful Koonwarra but as August is very confusing/busy/fun, I will have extra days in July as required.

**Phone readings** for those at a distance at a time that suits you. All I need are photos of your hands. This may be the best opportunity for you over the next month or so.

## Birthday Greetings go out to

**Cancer** 21 June – 22 July

*"The ache for home lives in all of us. The safe place where we can go as we are and not be questioned."*

Maya Angelou.

I give thanks to all the Cancerians who demonstrate how to nurture and create a secure place in the deepest most quiet parts of ourselves.

May the stars help us channel your care and open us to sharing it for others in our own lives.

**Leo** 23 July - 22 Aug

*"As you get older, it gets a bit harder to keep the spontaneity in you, but I work at it."*

David Hockney

I give thanks to the Leo's who show that creativity and warmth can be expressed without fear.

May the stars help us channel your spark so that we can find it within ourselves and continue to shine even when the inner light feels dimmed.

## Quote of the Month:

Thinker. Maker. Tinker.

Or is it

Tinker. Maker. Thinker. Original source unknown and thank you K.C.

This quote is worth thinking about. Are you a Thinker wanting to be a Maker of something different in your life and think that you must make the change before you can Tinker with it?

Well Goodness me.... How about reversing the order!

I suggest that you Tinker with your life... try this and that... keep Tinkering. Then flow will naturally move you into becoming a Maker of your dreams and in turn you can then be the Thinker on what it means.

I personally would add one more, and that is Thinker. Where do you think that should go in the order??

## Gossip Corner What am I getting up to? Everything!

Coming.... Great dates to put in your diary

And as I am going to be both busy and having a great time and then busy and having a great time and guess what, then busy again.... I do not know where I will be or when I will be in August or (not yet decided) some of September. For that reason, I am opening up more available readings in July. See you soon. ☺

## Myths, Astrology and Palmistry Discussion Group

On Tuesday 20<sup>th</sup> at 6.30pm at Dyology of Traralgon

This experiential ongoing monthly workshop explores your natal chart, hands and life.

This month's theme is Venus, and we will cover the ancient significant of the Pentagram, the reason we like or love the things we do, and the people we like and love, what we want to do with money, and what it means if you have a plump or flat base of your thumb. Your Venus sign chooses lovers, partners and friends, and shows why they are sometimes different.

A basic understanding of astrology helps. Call Dyology to book on 51747576.

## Ancient Moon Gardening

Gazing out the window I can see the veggie patch and this month boy-birds are chasing girl-birds ... or is it the other way around. They are even embracing with lots of neck kissing and doing lots of wiggling and showing off their never-you-minds! ☺ Nature is certainly getting ready for babies this Spring, and even the deciduous trees are already growing fat new buds!

Last month in a perfect Moon pruning time I pruned the roses and managed to get torn to shreds in the process... Note to self: Kerry you have the gauntlets in the shed... why not use them!

Watching nature and seeing plants grow is a metaphor for life and this month I learnt to let things be easy and use what life provides (gauntlets), as it **does not have to be hard!**

I am also reminded that in the darkest moment.... New Life is already being made.

Dates AEST	Moon Position and Phase	Ancient Moon Gardening Planting and sowing days
1 <sup>st</sup> 2 <sup>nd</sup> 3 <sup>rd</sup> 4 <sup>th</sup> 5 <sup>th</sup> July	Waxing Fertile 2 <sup>nd</sup> Quarter	Perfect for all sowing and planting. Especially for vegetables that bear fruits or seeds for eating.
9 <sup>th</sup> July	<b>Full Moon</b> In Capricorn	Official gardeners rest day so do nothing. ☺ Share your future aims and goals.
13 <sup>th</sup> 14 <sup>th</sup> July	Waning Fertile Moon 3 <sup>rd</sup> Quarter	Plant root crops.
23 <sup>rd</sup> July	<b>New Moon</b> in Leo	Rest and do nothing. Cultivate and grow all new ideas.
28 <sup>th</sup> 29 <sup>th</sup> July	Waxing Fertile 1 <sup>st</sup> Quarter	Perfect for all sowing and planting. Especially for vegetables whose leaves we eat.

Now you know when to plant – you will want to know when to

- prune to enhance growth,
- prune to reduce growth,
- fertilize,
- weed,
- harvest crops
- treat pets for fleas and ticks
- manage plant and animal diseases
- and make gardening easier!
- Haircuts and ....

### News from the Stars

5<sup>th</sup> July Venus enters Gemini

6<sup>th</sup> July Mercury enters Leo

9<sup>th</sup> July **Full Moon** in Capricorn a time of serious endeavor.

10<sup>th</sup> July Sun opposite Pluto

20<sup>th</sup> July Mars enters Leo

21<sup>st</sup> July Mercury enters Leo

23<sup>rd</sup> July **New Moon** in Leo a time of action and creativity.

23<sup>rd</sup> July Sun enters Leo

26<sup>th</sup> July Mercury enters Virgo

The movement of the planets herald time when we **feel mood changes**, times we are galvanized to **take action**, and others times when we **lack energy**. There are shifts in feelings and energy levels at all New and Full Moons, when planets move into signs, or when there are connections (aspects) between planets, or when they turn retrograde or move direct again.

Pay attention to the days when these shifts happen and notice your feelings and energy levels. This understanding will enhance your experience of life.

To further experience the rhythm of the Moon I suggest that you aim to start new projects and events at the New Moon, and bring them to full development approximately two weeks later at the Full Moon. From the Full Moon back to the New Moon is a time to look at the consequences, to reflect on what you achieved and to think about changes or new ideas that you will “birth” again at the New Moon.

Enjoy the ride!

### What's that Star in the sky?

The brightest night is with the Full Moon on the 9<sup>th</sup> July and the darkest night is on the New Moon on the 23<sup>rd</sup> July. To be amazed by the heavens, first get your bearings and note that North is the warmest side of the house. Face north and on your right is the east where the Sun rises, and on your left is west where the sun sets. Behind you is south.

### For all you Night Owls

The month starts with a beautiful quarter Moon conjunct Jupiter. The bright star to the east is Antares in the head of the Scorpion, with his curving stinger a big feature of the evening skies. A little further to the east is creamy coloured Saturn and let the Moon be your guide when she passes underneath Saturn on the 7<sup>th</sup> July. Mercury appears mid-month low on the western horizon as the sunlight fades but hills or trees

may obscure it from view. The Moon will be close by Mercury on the 25<sup>th</sup> July. The month ends as it starts, with the Moon again visiting Jupiter on the 28<sup>th</sup> July. Turn around and look south to see the Southern Cross right side up with the pointer stars on the left.

### **For all you Early Birds**

Venus shines brightly as the Morning Star and will be close to the Moon on 20<sup>th</sup> and 21<sup>st</sup> July, This will be a beautiful sight.... but a bit too cold and early for me! Saturn is on the western horizon and will be close to the Moon on the 7<sup>th</sup> but he will disappear into the horizon during the month and evenings are the best time to see him. The Southern Cross is upside down and very low in the heavens with the pointer stars above. I suggest that you stay cozy in bed and peek at the stars tonight.

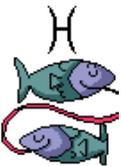

**Let yourself be amazed 😊**

*Sometimes the night wakes in the middle of me  
and I can do nothing  
but  
become  
the  
Moon.*

Niyyirah Waheed

About to start grandpuppy sitting 😊
